Issue 1/2011  
Single Review

"... This incredibly good amplifier seduced to listen to music not with muscle strength, which is noticeable however, rather with bravura elegance and perfect balance. The Audiomat Opéra Référence takes any music fan with his wonderfully inclusive, however free and open sound for a ... "

Issue 5/2009  
Single Review

"Those who, like the author of an old love to manufacture products cherishes and anyway is a friend of the integrated tube integrated amplifier, the sound is anything but soft flushes, reproduced rather very expansive and musically, which should really listen to this once French. The right speaker is of the utmost importance. ... "

Single Review

"... Maybe reicht`s when I say that my search has found for the ideal amplifier is over - if you should ever be tired of hearing this amp, you should first probably question his own zest for life. Nothing that I came to the ears so far has led me so close to the music as close to the idea of the artist as the Opéra Audiomat Reference. A truly wonderful amplifier. ... "
